## Energiekontor Lands Third EMAS Certification and Index Entry With 22 Projects in the Works

Energiekontor achieves third consecutive EMAS certification and inclusion in WilderHill Wind Energy Index, but stock drops 10% weekly. ....

The past week has delivered a mixed bag for Energiekontor, with two non-operational milestones — a third consecutive EMAS certification and inclusion in the WilderHill Wind Energy Index — arriving against a backdrop of ....

....

On June 3 — the day before the EMAS news — Solactive confirmed that Energiekontor had been added to the JPY-variant of the WilderHill Wind Energy Index as part of its regular rebalancing, which was announced on May 19. The index groups global companies involved in wind turbine technology, grid infrastructure, rotor blades and power infrastructure, placing Energiekontor alongside names such as Vestas, Nordex, Ørsted, EDP Renováveis, SMA Solar and Infineon. Trading volumes on the effective date were moderate: €1.25 million on Xetra and ....

For investors, neither the EMAS re-certification nor the index inclusion changes the earnings power of the business. Both strengthen the company's governance and visibility — one through a verified environmental management system, the other through placement in a thematic benchmark — but the next meaningful catalyst will be operational. ....
